

KHARISMA

Khørisma

In the mid – seventies, the Ragnedda family initiated a viticultural estate, Capichera, with an extremely precise objective : to produce wines of the highest quality and on an international level solely from indigenous vines.

From that point forward the bet was on and the estate of Capichera became recognized as one of the legendary Italian estates of top quality and their “Capichera Classica,” was recently defined as “The best Italian white from indigenous vines and the best Vermentino in the world.”

The entire production is sold through pre-reservation and the requests from the market are increasing every year.

In this context, such a productive growth would appear to be normal and necessary, however on the contrary, we have taken a decision that Capichera should remain a small cellar, producing hand made wines, unique and exclusive, following the initial dream. To increase the production would negate the essence of the exclusivity of the product and would be in any case inappropriate given that all the estate wines stem from the vineyards which are limited (producing the particular characteristics) and not easily duplicated.

It is for this reason that we decided to embark upon this new project. “Khørisma”, is a new cellar where two wines are produced ; a white and a red, where the typicity of the vine is focused upon coupled by the fantasy of the blend.

A marriage between the indigenous vines and international vines with the objective of producing great Mediterranean wines.

KHARISMA BIANCO is a blend of Vermentino (80 %) with a delicate amount of Chardonnay.

Vermentino defines the actual structure of this wine, with a multiplicity of aromas and fruity perfumes and the Chardonnay allows for persistence in the aromatic sensations and floral notes.

KHARISMA ROSSO, a blend of Carignano (85 %) and Cabernet Sauvignon, manifests all of the character and structure of the Carignano of Sulcis vinified in Barriques and united with the complex aromas and persistence of the Cabernet Sauvignon.

KHARISMA, in one word, encapsulates the philosophy of this project.

Wines of complex character, a blend of typical and Mediterranean character ; wines of structure, harmony, elegance with fleshy fruit ; however the synthesis in one sole word , **Charismatic.**
