

SAN GIOVANNI I.G.T. COLLI DELLA TOSCANA CENTRALE

*T*his wine is achieved only from Sangiovese grapes harvested in a single vineyard two hectares large. Our purpose is to obtain a well structured wine, able to preserve for a long time evident peculiar fruited signs of Sangiovese vine.

We obtained this result aging the wine in big oak's barrels (capacity 25 hl.) only nine months long.

The outcome is a fruited wine and not overwhelmed by the wood's scents.

Recommended with roast meat and game.

Color: ruby red with garnet shades

Bouquet: intense, vinous and persistent, with scents of red grapes fruits. Soft hint of wood at the final smell.

Taste: fragrant and fruited, fullbodied, particularly armonius with a long and intriguing aftertaste

Alcohol content: 14%

Composition: Sangiovese 100%

Serving temperature: 18°C
